Dahlias
for
1925

LIBRARY

RECEIVED

MAY 28 1931

IN MY 1925 price list I have added some new novelties, which I am sure will please, also a number of selected varieties from other sources.

Every care is taken to ship tubers in good condition, which are absolutely free from disease. I will guarantee all tubers to be true to name or else will replace order.

To the trade I allow the usual discount.

Of some varieties I will have only starting green plants. Growing dahlias from green plants is just as successful as from tubers.
